PS-1	An NOC Performance Strategist responsible for sports funding allocation.	Identify specific sports that yield the highest historical medal returns per athlete [0Z_Q3c].	The raw athletic data is heavily congested and cluttered with non-medal participants [h96k8-, 0Z_Q3c].	There is no clear numerical metric readily available to compare multi-event sports like Swimming against single-event team sports [0Z_Q3c].	Frustrated and uncertain when presenting strategic budget proposals to senior board directors.
PS-2	A Sports Investment Analyst evaluating global funding efficiencies.	Locate smaller, highly efficient countries that deliver strong medal footprints on minimal funding footprint [0Z_Q3c].	Large dominant nations like the USA completely skew the overall visual landscape in traditional charts [0Z_Q3c, Y9GLOl]	Global datasets do not easily display the direct relationship between small budget footprints and regional success ratios [0Z_Q3c]	Anxious about missing out on high-efficiency funding partnerships across developing sports sectors.
