Project Name	Global olympic sports performance analysis
Maximum Marks	4 Marks

Empathy Map Canvas:

An empathy map is a simple, easy-to-digest visual that captures knowledge about a user's behaviours and attitudes.

It is a useful tool to helps teams better understand their users.
Creating an effective solution requires understanding the true problem and the person who is experiencing it. The exercise of creating the map helps participants consider things from the user's perspective along with his or her goals and challenges.

Example:

PERSONA NAME: Ms. Priya (NOC Performance Strategist)

* SAYS:

- "I need a filterable dashboard to identify sports with maximum medal returns."

- "Generic global reports don't help in strategic funding allocation."

* THINKS:

- 'Is it risky to put budget into Rowing or Shooting without data backup?'

- 'How do I find the true performance efficiency of smaller countries?'

* DOES:

- Reviews historical datasets to evaluate athlete performance profiles.

- Cross-references specific sports metrics against overall country standings.

* FEELS:

- Overwhelmed by the sheer size and clutter of unorganized global sports data.

- Confident when presented with clear, interactive, and responsive Tableau dashboards.
